

LEADERSHIP PRINCIPLES

We strive to operate in inclusive, collaborative, transparent, accountable ways that make our institution more student-centered, research-focused, and service-oriented. Our work supports the campus Strategic Plan and EDI Accountability Framework.

PRINCIPLED PLANNING: We make strategic decisions that are informed by data, refined through consultation with diverse partners, and aligned with university values and priorities.

COHESIVE EFFORTS: We pursue collaborative, flexible, inclusive, locally-informed approaches to achieving university priorities at campus scale.

TRANSPARENT OPERATIONS: We follow open, consistent processes that foster integrity, inclusion, and stewardship and we publicize campus data to promote accountability.

ACTIVE ASSESSMENT: We leverage our periodic reviews of individuals, programs, and the institution for formative feedback on strategic priorities and initiatives.

LEARNING FROM DISRUPTION: We pursue the long-term application of practices that have fostered institutional resilience in challenging times.
